

## Dräger X-plore® 6530 Full Face Masks

The Dräger X-plore® 6530 is the most widely used full face mask from professionals in a wide variety of applications. It meets the highest demands for quality, reliability, secure fit and comfort. This full face mask is the successor to the Panorama Nova masks, a range which has proven itself over decades of use worldwide

The Dräger X-plore® 6530 is compatible with the respiratory filters from Dräger's comprehensive X-plore® Rd40 filter range. This mask covers a wide range of applications and is versatile in use. For applications with unknown contaminants or in oxygen deficient environments, the Dräger X-plore® 6530 can be used in combination with a self-contained breathing apparatus.

The mask body, which is made of robust and hypoallergenic EPDM, features a double-layer face seal with triple sealing action for a secure and comfortable fit on just about any shape of face. The mask comes in a universal "one size fits all", making logistics and storage easy. The comfortable five-point head harness not only ensures that the mask can be donned easily and quickly, but is wide enough to prevent any pressure points on the wearer's head.

The distortion-free visor with 180° wide-angle guarantees a large field of vision with panoramic view. It comes in either impact-resistant polycarbonate (with a plastic frame or extra robust stainless steel frame) or chemical-resistant triplex (with an extra robust stainless steel frame). The intelligent ventilation system ensures that the visor remains fog-free, while a stainless steel speech membrane facilitates communication. The mask also comes with a neckstrap for easy carrying.

A barcode inside the mask makes checking inventories and carrying out maintenance easy. Valves can even be serviced without tools. A full range of accessories and spare parts are available. High quality materials and careful workmanship ensure mask longevity, making the masks highly cost effective.

### TECHNICAL DATA

Mask body	Highly resistant and hypoallergenic EPDM
Visor	Choice of impact-resistant polycarbonate or extremely temperature- and chemical-resistant triplex
Connector	Sturdy plastic with inhalation and exhalation valve, standard thread connection Rd 40x1/7" as per EN 148-1
Weight	Approx. 550 – 650 g (depending on visor/frame)
Tested and approved	EN 136 Class 3 (CE mark), NIOSH (PC), AS/NZS

ST-7498-2005

Dräger X-plore® 6530 EPDM/PC with PC visor and plastic frame

ST-14949-2008

Dräger X-plore® 6530 EPDM/PC with PC visor and stainless steel frame
