MSA G1 iTIC Integrated Thermal Imaging Camera

THE SAFETY OF VISION — NOW FOR EVERYONE

Upgrade to an MSA G1 SCBA with iTIC.
The first and only TIC integrated directly into the SCBA

The iTIC provides personal thermal imaging capabilities to every firefighter for faster, easier, and more reliable decision-making.

 No additional bulky equipment added to your facepiece or hanging from your gear

 Easily ordered on any new G1 SCBA and compatible with all in-service G1 SCBA via a simple field upgrade

 Powered by the G1 SCBA integrated rechargeable power source never check multiple battery locations again

 Single button auto-on functionality allows the iTIC to come on immediately with the SCBA and easily cycle through various screens

NFPA 1981/1982-2018 compliant
