Coated	No
Harness Integrated Chair	No
Harness Reflective Webbing	No

Miller® One-Pull Relief Step™

Relief Step for Suspension Trauma

- Simplifies the process of deploying trauma relief steps, reducing response time during emergencies
- Includes two steps for both feet, ensuring balanced pressure relief and improved comfort
- Easy to carry and integrate with most harness systems
- Ensures quick and efficient deployment, enhancing safety
- Reduces the risk of suspension trauma by allowing workers to stand and restore blood circulation during prolonged suspension
- The single-pull mechanism simplifies operation, making it accessible even in high-stress situations
- Compatible with most harnesses, making it suitable for various industries and applications
- Affordable pricing ensures accessibility for organizations prioritizing worker safety
- Designed with high-quality materials to withstand demanding work environments
