Miller® SkyGrip™ Horizontal Lifeline Systems Kits

- Designed for easy installation on steel and concrete applications
- Interchangeable stanchion posts enable systems to be used for steel or concrete applications maximizing investment and increasing versatility
- Above-the-beam quick installation and adjustment for increased safety
- Stainless steel energy absorber minimizes fall clearance
- Tension indicator ensures proper tensioning, critical to knowing fall clearance
- Continuous pass-through design provides 100% tie-off connection with multi-span systems
- Lightweight and compact design provides easier handling, installation, and storage
- Durable zinc-plated steel construction provides corrosion resistance for increased durability and longer service life
